CORRO GUARD -ADMIX

Description

Corro Guard-Admix is a admixture for Reinforcement bars embedded in concrete, offers higher corrosion resistance due to Inhibitors added to it.

Areas of Application

- ✓ Corro Guard-Admix recommends for steel re-inforcement exposed in marine, aggressive, mild & moderate environments, where durability of structure is required.

Features & Benefits

- The Chief advantage of this Corrosion Guard-Admix is it offers higher corrosion resistance.
- Durability factor increases
- Does not impact on compressive strength of concrete
- The synergistic effect of the inhibitors offer better, passivation to the steel re-inforcement embedded in concrete

Application & Method

- Corro Guard-Admix is recommended for use a 250ml-300ml per bag of cement.
- Corro Guard-Admix can be added to concrete batch. It should not be mixed with any other additives being mixed in concrete.

Safety Guidelines

- Hand gloves must be used while adding Corro Guard-Admix.
- Goggles must be used.
- Containers should be kept in dry atmosphere.
